## NARRATIVE

On 01/07/2015 at about 0827 hours (all times approximate) I was dispatched by police radio to a blocking non-injury collision with two vehicles being involved at the intersection of 20th Street SE and South Lake Stevens Road.

Arriving on scene on observed debris at the southeast corner of the intersection and 2 vehicles facing southbound in the left turn lane for northbound traffic at the southeast corner of the intersection.

I contacted the two driver's involved and was told there are no injuries as a result of the collision and both driver's declined an aid car. There were three juvenile passengers in one of the vehicles and the driver declined aid for the children.

Both vehicles had been moved out of the intersection, away from the point of contact/collision, upon my arrival.

Based on evidence and statements at the scene it is found that U1 had been traveling eastbound on 20th Street SE and had entered the intersection while facing a solid red circular light as U2 had entered the intersection while traveling westbound on 20th Street SE and was making a left turn onto southbound South Lake Stevens Road. The two vehicles collided in the intersection causing reportable damage. Both vehicles were able to be moved on their own power without being towed. The driver of U1 stated he was approaching the intersection at about 20 mph (in a 35mph speed zone) when he seen the left green arrow for east to northbound traffic on 20th Street. The driver of U1 claimed he knew the people in the pickup in the left turn lane so he was going to drive by and wave. The driver of U1 claimed having seen the green left turn arrow he had assumed he had a green light to enter the intersection and travel eastbound through the intersection. The driver of U1 claimed when he realized he was facing a red light it was too late as he entered the intersection with U2 making a left turn in front of him.

The driver of U1 stated several times that he knows the collision is his fault because he had the red light and apologized.

At the time of the collision the driver of U1 stated he is aware his driver's status is suspended/revoked because he was recently cited for DWLSR and no vehicle insurance. The driver of U1 claimed he recently purchased vehicle insurance, though he did not have proof of vehicle insurance at the scene. The driver of U1 claimed he would go home, get his vehicle insurance information and call the police department with the information.

The driver of U1 was cited for no valid operator's license with identification and for entering the intersection while facing a solid circular red light resulting in a collision.

I obtained written statements from both drivers and took a few digital images of the vehicles and intersection.

It should be noted as of 1700 hours on 01/07 I had not heard back from the driver of U1 in regards to his insurance information and I had called his phone twice leaving messages. At this time, not having insurance information from the driver of U1 I issued a second infraction to the driver of U1 for operating a motor vehicle without insurance (to be sent to the violations bureau to be mailed.
